An action was brought by Orlando Hunter against the Groun Bay, Milwaukee and Chicago Railroad Company, for demages sustained by plaintiff in consequence of the negligence of the Oogress to-morrow, tendering to Gen. His Honor charged the Jury, among other
things, that to entitle the plaintiff to recover,
they must be estimated from the proof that he was free from negligence and that the injury to him or from the garage of angligence on the part of the defendant—that negligence in either party was not to be presumed, but must be proved to their satisfaction. The jury found a verdict in favor of the plaintill for the sum of \$7000,—their party of the plaintill for the sum of \$7000,—their party of the plaintill for the sum of \$7000.—

We understand that this case has been appealed, the Company insisting that the fault was not on their side, and the damages, under the cirenmstances, excessive.

Further by the Atlantic. Naw York, Jan. 6.

The Atlantic reached ber wharf at two o'clock GREAT BRITAIN.—President Buchanan's message attracted great attention. It was telegra-phic entire from Liverpool to some of the Lon-don journale, being the longest despatch ever sent by telegraph in England.

The Times in thereview of the message, con-

Let the American government give proof of this, and we are sure that the strength will be appendig settled. Dommon sense these tell the Americans that in these two Equestions we are strictly une-the defensive, and the most inveterate declaimer against England cannot dony the conciliatory spirit in which she has treated them. But we can hardly be asked to

give up the trenty of 1860, without a gurantee that its most importent provisions shall be re enacted, and the whole series of tritating disputes be brought forever to an end.

Further attempts to launch the Levisthan were

postponed until the spring tides at the commencement of January. The hydraulic power is to be more than doubled. The ship remains fair and even on the ways, and at high tide has nearly six feet of water under her. Rumors of Ministerial changes were again in

irculation. The London Advertises understands Mr. V. Smith will lauve the Rosed of Control, to be succeeded by Sir C. Wood, and that should Mr. Smith retire, his patron, the Murquis of Landowne, would probably withdraw from ministorial life.

An agreeable social and political banquet was given by Francis P. Blair, at his residence of Silver Spring, on Friday Inst, to Hon. N. P. Banke, Preston King, Judgo Trambull, Senator Doollitle of Wisconsie, F. P. Blair, Jr., and many other prominent members of the Republican parytin Corg 28.

Important political measures are often conceived and arranged at these festive meetings.—
It was at Silver Spring, in the winter and spring of 1856, that the nomination of Colonel Frement was settled. Parties are forming their plans already for 1850, which is but two years distant. already for 1800, which is but two years distant

already for 1800, which is but two years distant. The preliminary movements of the republicans are of most public interest, because they are the party which will succeed in 1800.

Col. Benton says that the chasm in the Demogratic party cannot possibly be closed or abridged, and that the Republicans can only deleat themselves by gross mistakes. The Republican candidate for 1800 will be taken from the circle of these names: Mr. Soward, Col. Fremont, Governor Banks, Governor Chase, Governor Bissell.

Sonntor Danglas or Governor Walker will probably be the candidate for the barnburners or Free Soil Democracy, and President Buchanan will necessarily be renominated by the adminis will necessarily be Follominated by the damnis-tration party. The latter result will be brought shout by the smothered rivalry of Messrs. Wise and Hunter, and the struggle for ascendency be-tween Jefferson Davis and Robert Toombs.

The authority of all the great Statesmen, in the earlier and better days of the Republic; and of every successive President from the illustrious Washington down to the present occupant of the White House, is record ed on the page of bistory in favor of this same construction of the Constitution. It was reserved for the Pigmies of the present day to attempt the overthrow of the doctrines laid down by the Giants who framed and fushioned our instituj tions, and this, too, for no higher, or better purpose than the extension of Stavery. The democracy of Jefferson, and of Jackson, would noverhave stooped to such a crusade against Right, Freedom and Humanity; but the Democracy of Buchanan, Cass and their followers finds: in it a congenial and welcome task.

True Position of the Kansas Matter. We copy from the Stevens Polat Pinery a we copy from the state point of the Kansas question is stated, and from which all can see how little there is to quarrel about:

"The whole world knows that the slavery question is all that over divided parties about this Kansas business. That is fairly, distinctly

presented to the people for their vote and de-cision. This was the gist of the Kansas Nebras-ka Bill; and the Convention were not required either by the letter or spirit of the act to submit any other question, or part of the Constitution.' So says the Madison Argus, the State organ

of our Wisconsin Domecracy. And the News here says " ditto" to the Argus. If, therefore, these two papers have authority to speak for the party in this State, they are committed to the Locompton Swindle, and to the immediate admission of Kansas into the Union as a Slave State. But though the Argus and News cordially assont to the above quoted dictum of the Pinery, they will hardly say " amon" to this sontiment

The removal of the Court to the capital is always looked on us the commencement of the winter season, socially speaking. The sudden return of winter at St. Petersburg, in all its usual severity, after so unusually long and ganial a summer, has produced there a general epidemic in the shape of the 'grippe.' In Berlin, also, certain trials were obliged to be postponed from the direumstance that out of 24 jurymen summended, more than 12 were prevented being empanelled by being contined to their beds.

It is a happy circumstance, an Icishman mighting, that the close of the year 1857 did not come in October or November. If the panic of the iread days of last autumn were now upon us, the retrospect would be darkened by the gloom of the present, and we should have nothing pleasant to contemplate in our thoughts upon the clo-sing twelvements. Happily the holidays have found every thing in an improved condition; and we are able to shut the door on 1857 and open in for 1868, with cheerful words of parting and greating. The worst troubles are over, and the prospect is continually beightening.

The great event of 1867 was, of course, the fi-

nancial rovulsion. It has critised all other sub-jects of discussion or thought, and it has lott its mark upon the business of the country in char-actors that will not soon be obliterated. This is not the time to enquire into the causes of the revulsion; for there has been no accord in the conclusions of the multitude of political economists and other writers who have written upon mists and other writers who have written upon the subject so copiously, during the last few months. We only know that we have had the panic, as in former times we have had the cholers and the yellow fever. The origin of each epidemic has never been satisfactorily determined. It is a comfortable thing to be able to teel that it is over, even though we may still be grieving for the hundreds of noble men who suffered and fell in days of adversity. Most of them are, happily recovering, and the best sign of the times is the universal generous sympathy felt, and practically exhibited every where, for those who suffered. exhibited overy where, for those who suffered.—
If all the deeds of generosity done in the past few
months could be made known, it would be a record that would fill with pride every truly phil-

In Philadelphia, perhaps, above most of the
other cities, the effects of the financial revulsion
were severely left. But the year closes with reviving business, restored confidence, and a steak
of new wisdom, learned by bitter experience,
that ought to serve us for a long time. It is an
accountaging sign that, as the year closes, an ear encouraging sign that, as the year closes, an car-nest effort is making by the backs for a resump-tion of specie puyments at an earlier day than that fixed by law. It is a still better sign that We have full particulars of the murder of Lieutenaut General Prince Gagarin, Governor that fixed by law. It is a still better sign that in the Guard. After all, the general condition of affairs has not been so full of calamity as has been supposed, and there has been a fair average done of a prosperous and remunerative business in some of the leading de partments of trude. The great railroad to the west, which has been constructed by Philadel-phia capital, has done a larger business than was ever done on it in any former year. The coa sue, and that office-holders, so inclined, might in out him and not his death at the hands of the salety write two horses." The Pinery, however, scouts that idea and insists that they must make their election between the two.

Dan Maddin:—The reputation of the Medical Discerscry, in ouring all kind of humors, is so well established,
by the unanimous voice of all who have ever used it, that
I need not say anything on the subject, as the most skilful physicians and the most careful Druggists in the country are unanimous in its praise.

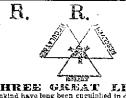

In presenting the Medical Discovery to your notice, I
do it with a full knowledge of its curalive powers, in reieving all, and curing most of those diseases to which
you are unfortunately so liable. That most exeruciating
disease to an affection stempther. you are unfortunately so liable. That most edisease to an affectionate mother NURSING SORE MOUTH,

NURSING SOME MUUTH, is cared as if by a miracie; your own temper is restored to its natural swetters, and your babe from short and fretful naps to caim and sweet slumbers; and the Medical Discovery becomes a fountain of ole-sings to you busband and bouschold. In the more advanced stages of CANLER. it extends to the stomach, ensuing DYSPEPSIA, which is nothing but caucher on the stomach; then to the intestines and

KIDNEYS, creating a sinking, gone feeling, and an indifferenceeven to the cares of your familty.
Your stomach is
RAWY AND INFLAMED,
your food distressed you, and you can only take certain sinds, and even of that your system does not get half the nourishment it contains, as the acrimonous find of the canker east tryp; then your complexion loss its bloom and becomes sailow or greenlish, and you best day is gone. For want of nourishment your system becomes lose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to CURE;
Palpitation of the heart, pain in the side, weakness of KIDNEYS,

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bewels, and also, that most exerculating of diseases the part of the part of the ES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a voomed care." In the MEDICAL DISCOVERY rou have both the preventative and the cure, with this reast and good quality, that it will never, under screen unstances, do you as injury. MARKHEE GREENAR LIGHTS.

Mankind have long been engulphed in darkness, as regards the true means of sectoring health—ridding the human body from diseases, and preserving life. The alch, under the fallacious treatment of the regular faculty, are subject to a continued practice of probabilities and uncertainties. There is nothing certain or fixed in the treatof the slox either in the distorney was school of medicine.

Dr. Radway has succeeded in producing three remedies—import to the world as Radway's Ready Relief, Renevating Resolvent and Regulator. These remedies are of only established facts, inasmuch as they have nevery et failed in their special or combired efficacy in producing fruitful and benefois results—but, they are facts establishing a cience—as the have in all cases, "when tried,"

As a Special Remedy to be used in all cases where the human body is exized with the torturing pangs or paroxymm of paln—no matter what the cause of the pain may be, or where it may be located—an application of the Ready Relief, either internally as a drive, or externally as no alleviator, will, in a few minutes, restore the afflicted body to ease and comfort.

In all cases of Bowel Disorders, Dysentery, Cholera, Bloody Flux, Sich Beadache, and other Nervous Affections Volume 1988. Biondy Plux, Sick Headache, and other Nervous Affections, Neuralpia, Rheumatiett, Sprains, Strains, Tooth Ache, Burns, Scaids, Wounds, Shot Wounds, Smisea, Cuts Polsoning, either by the blies or stings of Reptiles, Insects or Yegetable or Afineral Poisoning by accident—in all cases and under all circumstances where the human system's tornied by Bails, Radways' Read Relief can be relied upon as a quick, safe and certain Remedy.

In cases of Billiousness, Billious Fever, Typhus Fever, Ship Fever, Yellow Fever, Fever Ague, Scarict Fever, and all mailgnant Fevers, Smail Fox, Measies, Pheumonia, Radway's Ready Relief, used in connection with Radway's Regulators, will cure the positively sick, affitted with those disorders, and protect the system against each den attacks when either of these mailgnant diseases provatil.

SECOND GREAT LIG**ZT**. RADWAY'S REGULATORS,

The discovery of these wonde, fol pills establishes a new erain purgation, and a new principle in the science of medicine. In taking these pills no griping pains or elektronic stemment is experienced—they operate naturally leaving the bowels, liver and other organs in a natural and a healthy condition.

They insure these who take them a good appetite and healthy digestion.

Each pill that is taken gives new life to the blood—they purify it, take from it all impure deposits, and equalize its circulation.

One or two dasses of Radman's house.

are taken. Every dose of Radway's Regulators that is taken in-file new strength within the body of the weak, feeble and infirm. All who take are delighted with the happy change they experience in a few hours. The dispirited and meiancholy feel joyous and happy; the sick and debilitated, strong and vigorous. THIRD GREAT LIGHT.

RADWAY'S RELIEV - REGULATOR - RESOLVETS.

In all constitutional diseases, and where the Contribution is broken down, or the body in a rapid state of decay, or the system inoculated with the tirus of disease, ether by the violation of the laws of health, intemperance, excess and indulgence of the pastions, or by hereditary fracassistom, as in case of Scroftla, Consumption, Rheumatism, Goul, Fit and other hericoms, which a long line of ancestry has so bountfully and richly bestowed on posterity, as a memonto of the past, at the cost of the suburing inheritors. Break Remedies, in their trailiary capacity, postess a curative power that se disease can withing the increas from the trailiary capacity, postess a curative power that endicate from the living body every particle of diseased matter, tanovate the whole system with health; lead the tandout from the living body every particle of diseased matter, tanovate the whole system with health; lead the masound, decaying lungs, or other organ; cleanes and purify the unclean from all impurities.

To the disabled wayfarer, who is crippled with infrantices we invite you "to try "there remed is. We will you'd for their efficacy.
